

FIdM OIDC OP REST

The Gigya [OpenID Connect](#) service is part of our Federated Identity Management Services, which are premium services that require separate activation. If it is not yet a part of your existing site package, please contact support by submitting a ticket through your [Console Support Portal](#) or sending an email to support@gigya.com.

Overview

Gigya's OpenID Connect OP APIs consist of the methods listed below. For implementation instructions, please see the [OpenID Connect](#) documentation.
